SPPP Form 2 – Public Notice

Municipality Information

Municipality: Borough of Magnolia

County: Camden

NJPDES #: NJG0152625

PI ID #: 203250

Team Member/Title: Christine M. Pippet, Acting Borough Clerk

Effective Date of Permit Authorization (EDPA): 04/01/2004

Date of Completion: 12/16/2005

Date of most recent update: 9/12/2018

Briefly outline the principal ways in which you comply with applicable State and local public notice requirements when providing for public participation in the development and implementation of your stormwater program.

For meetings where public notice is required under the Open Public Meetings Act ("Sunshine Law," N.J.S.A. 10:4-6 et seq.), Magnolia Borough provides public notice in a manner that complies with the requirements of that Act. Also, in regard to the passage of ordinances, Magnolia Borough provides public notice in a manner that complies with the requirements of N.J.S.A. 40:49-1 et seq. In addition, for municipal actions (e.g., adoption of the municipal stormwater management plan) subject to public notice requirements in the Municipal Land Use Law (N.J.S.A. 40:55D-1 et seq.), Magnolia Borough complies with those requirements.

SPPP Form 3 – New Development and Redevelopment Program

Municipality Information

Municipality: Borough of Magnolia

County: Camden

NJPDES #: NJG0152625

PI ID #: 203250

Team Member/Title: Steve Bach, Borough Engineer

Effective Date of Permit Authorization (EDPA): 04/01/2004

Date of Completion: 12/16/2005

Date of most recent update: 9/12/2018

Describe in general terms your post-construction stormwater management in new development and redevelopment program (post-construction program), and how it complies with the Tier A Permit minimum standard. This description must address compliance with the Residential Site Improvement Standards for stormwater management; ensuring adequate long-term operation and maintenance of BMPs (including BMPs on property that you own or operate); design of storm drain inlets (including inlets that you install); and preparation, adoption, approval, and implementation of a municipal stormwater management plan and municipal stormwater control ordinance(s). Attach additional pages as necessary. Some additional specific information (mainly about that plan and ordinance(s)) will be provided in your annual reports.

To control stormwater from new development and redevelopment projects throughout the Borough of Magnolia (including projects we operate) we will do the following:

We are already ensuring that all new residential development and redevelopment projects that are subject to the Residential Site Improvement Standards for stormwater management (including NJDEP Stormwater Management rules, N.J.A.C. 7:8, referenced in those standards) are in compliance with those standards. Our planning/zoning board ensures such compliance before issuing preliminary or final subdivision or site plan approvals under the Municipal Land Use Law.

Should the Borough construct any new development on Borough property we will ensure adequate long-term operation and maintenance of BMP's for that project. We will also require any storm drain inlets that we install to comply with the design standard in Attachment C of our permit. Once the Borough's Municipal Stormwater Control Ordinance takes effect we will ensure operation and maintenance for any new development or redevelopment projects on our property by complying with the maintenance requirements in that ordinance.

Our planning board has reviewed and adopted the Municipal Stormwater Management Plan and the plan has been submitted to the Camden County Planning Department for approval. A municipal stormwater control ordinance has been adopted by the Borough Council. The plan and the ordinance have been approved by the Camden County Planning Department. The ordinance is administered by our planning/zoning board and code enforcement officer.

For any BMP that are installed in order to comply with the requirements of our post-construction program, Magnolia Borough will ensure adequate long-term operation as well as preventative and corrective maintenance (including replacement) of BMPs. For BMPs on private property that we do not own or operate, Magnolia Borough intends to do this by enforcing a provision in the municipal stormwater control ordinance that requires the private entity to perform the operation and maintenance, with penalties if the private entity does not comply. If, for example, the private entity does not perform the required maintenance, the Borough can perform the maintenance and charge the private entity.

Magnolia Borough will also enforce, through the municipal stormwater control ordinance, compliance with the design standard in Attachment C of our permit to control passage of solid and floatable materials through storm drain inlets. Magnolia Borough expects that for most projects, such compliance will be achieved either by conveying flows through a trash rack as described in the "Alternative Device Exemptions," or (for flows not conveyed through such a trash rack), by installation of the NJDOT bicycle safe grate and (if needed) a curb opening with a clear space no bigger than two inches across the smallest dimension.
